NEO RADEBE

Full Stack Developer

0627091832 • radebeneo17@gmail.com • Github • Portfolio

About

Junior Full Stack Developer with hands-on experience building web applications using HTML, CSS, JavaScript, ASP.NET Razor, and Java. Strong foundation in front-end and back-end development, database-driven systems, and clean, maintainable code using state management. Experienced in working with real-world data, problem-solving, and collaborating in structured environments. Eager to grow within a professional development team, contribute to production systems, and continuously improve full-stack development skills under the guidance of senior developers.

Internships

FEB'24-JAN'26 **FULL STACK DEVELOPER INTERN** (THE DIGITAL ACADEMY)

- Collaborated with developers to deliver features in line with project requirements
- Applied MVC principles to structure application logic and improve maintainability
- Assisted in developing and maintaining full-stack web applications using HTML, CSS, Angular, and Java

FEB'23-JAN'24 **DATA SCIENCE INTERN** (EXPLOREAI ACADEMY - REMOTE)

- Analysed structured datasets using Python and SQL to identify trends and insights
- Cleaned, transformed, and validated data to support analysis and reporting
- Created visual summaries to communicate findings to non-technical stakeholders

Experience

OCT'25-MAR'26 **FULL STACK DEVELOPER (VOLUNTEER)** (PROTOCARE (PTY) LTD)

- Volunteered as a Full Stack Developer, contributing to the development of a web-based platform
- Worked closely with founders and designers to translate requirements into functional features
- Improved application stability by debugging issues and refactoring code
- Built and updated user-facing features using HTML, CSS, and ASP.NET Razor

FEB'23-JAN'24 **LAB FACILITATOR** (THE CLICK FOUNDATION)

- Supported and maintained computer systems used by multiple users
- Worked with data systems and ensured system accuracy
- Assisted users with technical issues and troubleshooting

SEP'22-JAN'23 **PARTS STOREMAN** (MONUMENT TOYOTA CONSTANTIA)

- Worked with inventory systems and process optimisation
- Collaborated across departments to ensure accurate data flow

FEB'22-APR'22 **FIELDWORK SUPERVISOR** (STATS SA)

- As a part of the Census 2022 team for StatsSA, I worked as Fieldwork Supervisor. I was responsible for supervising the work of a team of fieldworkers

FEB'22-DEC'22 **MARKER** (TEACHME2)

- Providing constructive feedback to help students understand their performance
- Reporting any anomalies or issues encountered during marking to the appropriate authority.

NOV'20-SEP'22 **TUTOR** (NUMERIC)

- Developing customised lesson plans and materials tailored to the student's learning style and needs.

Strong foundation in front-end and back-end development, database-driven systems, and clean, maintainable code using state management. Experienced in working with real-world data, problem-solving, and collaborating in structured environments. Eager to grow within a professional development team, contribute to production systems, and continuously improve full-stack development skills under the guidance of senior developers.

Internships & Accelerator Programs

FEB'25-JAN'26 **FULL STACK DEVELOPER INTERN** (TALENT SHAPER)

- Collaborated with developers to deliver features in line with project requirements
- Applied MVC principles to structure application logic and improve maintainability
- Assisted in developing and maintaining full-stack web applications using HTML, CSS, Angular, and Java

SEP'25-NOV'25 **EXPERIENCE LAB WEB TESTING GIG** (UMUZI)

- Perform manual testing across different browsers (Chrome, Firefox, Edge, Safari)
- Test responsiveness across desktop, tablet, and mobile devices
- Collaborate with developers to clarify issues and expected behaviour

FEB'24-JAN'25 **DATA SCIENCE INTERN** (EXPLOREAI ACADEMY)

- Analysed structured datasets using Python and SQL to identify trends and insights
- Cleaned, transformed, and validated data to support analysis and reporting
- Created visual summaries to communicate findings to non-technical stakeholders

Experience

OCT'25-JAN'26 **FULL STACK DEVELOPER (VOLUNTEER)** (PROTOCARE (PTY) LTD)

- Volunteered as a Full Stack Developer, contributing to the development of a web-based platform
- Worked closely with founders and designers to translate requirements into functional features
- Improved application stability by debugging issues and refactoring code
- Built and updated user-facing features using HTML, CSS, and ASP.NET Razor

FEB'24-JAN'25 **LAB FACILITATOR** (THE CLICK FOUNDATION)

- Supported and maintained computer systems used by multiple users
- Worked with data systems and ensured system accuracy
- Assisted users with technical issues and troubleshooting

SEP'22-JAN'23 **PARTS STOREMAN** (MONUMENT TOYOTA CONSTANTIA)

- Worked with inventory systems and process optimisation
- Collaborated across departments to ensure accurate data flow

About

Junior Full Stack Developer with hands-on experience building web applications using HTML, CSS, JavaScript, ASP.NET, C#, Java, PHP, and NodeJs. Strong foundation in front-end and back-end development, database-driven systems, and clean, maintainable code using state management. Experienced in working with real-world data, problem-solving, and collaborating in structured environments. Comfortable working within WordPress, existing codebases, fixing bugs, and implementing incremental feature improvements. Eager to grow within a professional development team, contribute to production systems, and continuously improve full-stack development skills under the guidance of senior developers.

Learnerships & Accelerator Programs

SEP'25-NOV'25 **EXPERIENCE LAB WEB TESTING GIG** (UMUZI)

- Perform manual testing across different browsers (Chrome, Firefox, Edge, Safari)
- Test responsiveness across desktop, tablet, and mobile devices
- Reported clear, actionable bugs to developers, helping speed up fixes and release .

FEB'24-JAN'25 **DATA SCIENCE LEARNER** (EXPLOREAI ACADEMY)

- Analysed structured datasets using Python and SQL to identify trends and insights
- Cleaned, transformed, and validated large datasets, improving data reliability and analysis accuracy.
- Created visual summaries to communicate findings to non-technical stakeholders

Experience

OCT'25-JAN'26 **FULL STACK DEVELOPER (VOLUNTEER)** (PROTOCARE (PTY) LTD)

- Volunteered as a Full Stack Developer, contributing to the development of a web-based platform
- Worked closely with founders and designers to translate requirements into functional user-facing solutions
- Improved application stability by debugging issues and refactoring code
- Built and updated user-facing features using HTML, CSS, and ASP.NET Razor

APR'24-JAN'26 **FULL STACK DEVELOPER INTERN** (SHAPER (DIGITAL ACADEMY))

- Collaborated with developers to deliver features in line with project requirements
- Worked within an MVC-based web application, maintaining existing controllers, views, and database interactions to improve maintainability and reduce bugs.
- Built and enhanced features using HTML, CSS, Angular, Java, Spring Boot, PHP, and C# .NET Core, improving application usability and consistency.

FEB'23-JAN'24 **LAB FACILITATOR** (THE CLICK FOUNDATION)

- Supported and maintained computer systems ensuring high system availability for multiple users.
- Resolved technical issues efficiently, reducing downtime and improving user productivity.

SEP'22-JAN'23 **PARTS STOREMAN** (MONUMENT TOYOTA CONSTANTIA)

- Managed inventory systems with a focus on accuracy and process optimisation.
- Coordinated across departments to ensure correct data flow and reduce stock discrepancies.

FEB'22-APR'22 **FIELDWORK SUPERVISOR** (STATS SA)

- Supervised and coordinated a team of fieldworkers to ensure data collection targets were met.

About

Junior Full Stack Developer with hands-on experience building and maintaining database-driven web applications using C#, ASP.NET Core, Angular, Java, Spring Boot, PHP, Node.js, SQL, and Python. Strong foundation in relational database design, SQL query optimisation, API integrations, and clean MVC architecture. Experienced in troubleshooting production issues, improving system reliability, and working within structured development environments. Exposure to data analysis, data validation, and performance optimisation across full-stack systems. Committed to writing clean, maintainable code and contributing to scalable systems that support real business outcomes.

Learnerships & Accelerator Programs

SEP'25-NOV'25 **EXPERIENCE LAB WEB TESTING GIG** (UMUZI)

- Perform manual testing across different browsers (Chrome, Firefox, Edge, Safari)
- Test responsiveness across desktop, tablet, and mobile devices
- Reported clear, actionable bugs to developers, helping speed up fixes and release .

FEB'24-JAN'25 **DATA SCIENCE LEARNER** (EXPLOREAI ACADEMY)

- Analysed structured datasets using Python and SQL to identify trends and insights
- Performed exploratory data analysis using SQL queries and Python data manipulation libraries..
- Created visual summaries to communicate findings to non-technical stakeholders

Experience

OCT'25-JAN'26 **FULL STACK DEVELOPER (VOLUNTEER)** (PROTOCARE (PTY) LTD)

- Implemented database-driven features to support user data capture and structured data storage.
- Worked closely with founders and designers to translate requirements into scalable functional user-facing solutions
- Diagnosed and resolved application bugs, improving overall system stability.
- Built and updated user-facing features using HTML, CSS, and ASP.NET Razor

APR'24-JAN'26 **FULL STACK DEVELOPER INTERN** (SHAPER (DIGITAL ACADEMY))

- Built and maintained features within an MVC-based web application using ASP.NET Core , Angular, React, NextJs, Java, Spring Boot, and NodeJs
- Debugged and refactored legacy controllers and database interactions to improve maintainability and reduce recurring bugs.
- Wrote complex SQL queries to support reporting and internal data workflows.

FEB'23-JAN'24 **LAB FACILITATOR** (THE CLICK FOUNDATION)

- Supported and maintained computer systems ensuring high system availability for multiple users.
- Resolved technical issues efficiently, reducing downtime and improving user productivity.

SEP'22-JAN'23 **PARTS STOREMAN** (MONUMENT TOYOTA CONSTANTIA)

- Managed inventory systems with a focus on accuracy and process optimisation.
- Coordinated across departments to ensure correct data flow and reduce stock discrepancies.

FEB'22-APR'22 **FIELDWORK SUPERVISOR** (STATS SA)

- Supervised and coordinated a team of fieldworkers to ensure data collection targets were met.

NEO RADEBE

Web Developer and IT Support Technician

0627091832 • radebeneo17@gmail.com • Github • Portfolio

About

Friendly and service-oriented Junior Web Technician and IT Support professional with over two years of hands-on experience in website maintenance, desktop support, and technical troubleshooting. Experienced in working with WordPress for content updates, layout adjustments, and general site maintenance, as well as assisting users with connectivity and email-related issues. Strong foundation in HTML and CSS with an interest in improving website layouts and user experience. Enjoy working in small collaborative teams and providing practical, user-focused solutions while continuously learning and expanding technical skills.

Accelerator Programs

SEP'25-NOV'25 **EXPERIENCE LAB WEB TESTING GIG** (UMUZI)

- Perform manual testing across different browsers (Chrome, Firefox, Edge, Safari)
- Test responsiveness across desktop, tablet, and mobile devices
- Reported clear, actionable bugs to developers, helping speed up fixes and release .

Experience

OCT'25-JAN'26 **FULL STACK DEVELOPER (VOLUNTEER)** (PROTOCARE (PTY) LTD)

- Implemented database-driven features to support user data capture and structured data storage.
- Worked closely with founders and designers to translate requirements into scalable functional user-facing solutions
- Diagnosed and resolved application bugs, improving overall system stability.
- Built and updated user-facing features using HTML, CSS, and ASP.NET Razor

APR'24-JAN'26 **FULL STACK DEVELOPER INTERN** (SHAPER (DIGITAL ACADEMY))

- Customised and maintained WordPress-style themes using HTML, CSS, and PHP, implementing layout adjustments and content updates.
- Modified templates and styling to improve usability and visual consistency across pages.
- Resolved plugin conflicts, styling overrides, and minor PHP logic issues affecting website functionality.
- Supported content editors by implementing structured changes within the CMS backend.
- Improved front-end responsiveness and cross-browser compatibility through targeted CSS refinements.

FEB'23-JAN'24 **LAB FACILITATOR (IT SUPPORT ROLE)** (THE CLICK FOUNDATION)

- Supported and maintained computer systems for multiple users in a lab environment.
- Resolved hardware, software, and connectivity issues to minimise downtime.
- Assisted users with login issues, system errors, and application troubleshooting.
- Ensured systems remained operational and ready for daily use.
- Provided user-friendly technical assistance in a structured learning environment.

SEP'22-JAN'23 **PARTS STOREMAN** (MONUMENT TOYOTA CONSTANTIA)

- Managed inventory systems with a focus on accuracy and process optimisation.
- Coordinated across departments to ensure correct data flow and reduce stock discrepancies.

FEB'22-APR'22 **FIELDWORK SUPERVISOR** (STATS SA)

- Supervised and coordinated a team of fieldworkers to ensure data collection targets were met.

NEO RADEBE

Data Analyst

0627091832 • radebeneo17@gmail.com • Github • Portfolio • Job Simulations

About

Detail-orientated and motivated Junior Data Analyst with hands-on experience supporting reporting cycles, maintaining data integrity, and assisting senior data professionals in operational environments. Strong foundation in Excel-based data analysis, data validation, and reporting support, with experience working under guidance to troubleshoot discrepancies and ensure accurate, well-organised data. Known for strong organisational skills, curiosity in problem-solving, and the ability to manage multiple data admin tasks reliably. Eager to grow within a professional data specialisation team, contribute to data administration systems, and continuously improve data analysis skills under the guidance of senior data specialists.

Learnerships & Accelerator Programs

FEB'24-JAN'25 **DATA SCIENCE LEARNER (QTCO CERTIFICATON)** (EXPLOREAI ACADEMY)

- Analysed structured datasets using Python and SQL to identify trends and insights
- Cleaned, transformed, and validated large datasets, improving data reliability and analysis accuracy.
- Created visual summaries to communicate findings to non-technical stakeholders

Experience

OCT'25-JAN'26 **DATA COLLECTION TEAM MEMBER (VOLUNTEER)** (PROTOCARE (PTY) LTD)

- Data Collection volunteer, handling of structured data for a web-based platform
- Worked closely with founders and developers to ensure data requirements were accurately captured and reflected in user-facing workflows
- Identified and investigated data-related issues by debugging application logic and validating outputs for accuracy and consistency

APR'24-JAN'26 **JUNIOR DATA ANALYST INTERN** (SHAPER (DIGITAL ACADEMY))

- Supported daily, weekly, and monthly reporting cycles by preparing, updating, and validating structured datasets.
- Cleaned, transformed, and validated data using Excel, SQL and Python, ensuring accuracy before analysis and reporting.
- Performed initial investigations into data inconsistencies, identifying root causes before escalation.
- Created clear summaries and visual outputs to support senior analysts and non-technical stakeholders.
- Maintained organised datasets and documentation to support team continuity and repeatable reporting.

FEB'23-JAN'24 **LAB FACILITATOR** (THE CLICK FOUNDATION)

- Supported and maintained computer systems ensuring high system availability for multiple users.
- Resolved technical issues efficiently, reducing downtime and improving user productivity.

SEP'22-JAN'23 **PARTS STOREMAN** (MONUMENT TOYOTA CONSTANTIA)

- Managed inventory systems with a focus on accuracy and process optimisation.
- Coordinated across departments to ensure correct data flow and reduce stock discrepancies.

FEB'22-APR'22 **FIELDWORK SUPERVISOR** (STATS SA)

- Supervised and coordinated a team of fieldworkers to ensure data quality, completeness, and accuracy.
- Coordinated data movement and reporting between field teams and management.

NEO RADEBE

Data Analyst

0627091832 • radebeneo17@gmail.com • Github • Portfolio • Job Simulations

About

Detail-orientated and motivated Data Analyst with hands-on experience in supporting complex reporting cycles and maintaining high data integrity. Proven ability to transform structured datasets into actionable insights that drive business efficiency and process improvement. Adept at using Python, SQL, and Excel to troubleshoot discrepancies and provide visual summaries for stakeholders. Eager to apply technical expertise to help increase profitability and optimize key business processes.

Learnership

FEB'24-JAN'25 **DATA SCIENCE LEARNER (QTCO CERTIFICATON)** (EXPLOREAI ACADEMY)

- Analysed structured datasets using Python and SQL to identify trends and insights
- Cleaned, transformed, and validated large datasets, improving data reliability and analysis accuracy.
- Created visual summaries to communicate findings to non-technical stakeholders

Experience

OCT'25-JAN'26 **DATA COLLECTION TEAM MEMBER (VOLUNTEER)** (PROTOCARE (PTY) LTD)

- Collaborated with founders and developers to capture data requirements for web-based platform workflows.
- Investigated data-related issues by debugging application logic and validating outputs for consistency.
- Ensured data quality and accuracy for a growing structured database used in real-time application environments.

APR'24-JAN'26 **JUNIOR DATA ANALYST INTERN** (SHAPER (DIGITAL ACADEMY))

- Supported full reporting cycles by preparing and validating structured datasets to ensure 100% accuracy before stakeholder review.
- Cleaned, transformed, and validated data using Excel, SQL and Python, improving data reliability for senior analysts.
- Performed root-cause investigations into data inconsistencies, resolving technical issues before escalation to senior specialists.
- Created visual summaries and data-driven insights to help non-technical stakeholders make informed operational decisions.
- Maintained organized documentation and repeatable reporting processes to support team continuity and efficiency.

FEB'23-JAN'24 **LAB FACILITATOR** (THE CLICK FOUNDATION)

- Supported and maintained computer systems ensuring high system availability for multiple users.
- Resolved technical issues efficiently, reducing downtime and improving user productivity.

SEP'22-JAN'23 **PARTS STOREMAN** (MONUMENT TOYOTA CONSTANTIA)

- Managed inventory systems with a focus on accuracy and process optimisation.
- Coordinated across departments to ensure correct data flow and reduce stock discrepancies.

FEB'22-APR'22 **FIELDWORK SUPERVISOR** (STATS SA)

- Supervised and coordinated a team of fieldworkers to ensure data quality, completeness, and accuracy.
- Coordinated data movement and reporting between field teams and management.
